Reflections

Rev. LeRoy Zemke, Pastor

Welcome to 2017!

According to the ancient system of numerology, 2017 is ruled by the universal rhythm of the number 1. Many people across the world accept that each year has certain qualities/energetic patterns and influences that emerge vibrationally across the world of flesh and form.

2017 marks a new 1 year. In America, it offers a new president, a totally new governmental administration and a hopefully improved way of doing things. Of course, every new year holds the promise of the future.

Energetically, we are ready for significant change at depth, a letting go of the old guard. Are we ready internally for really new and creative ideas as well as a fresh approach in government, nationally and locally as well?

The energy of the 1 year offers significant stimulation towards growth in our U.S. economic circumstances especially in education, banking, every form of business and finance, entertainment,

media and the IT world. It's a time of deep change in nearly every form of human endeavor in our nation.

With a new leadership in our country, we are faced with crisis or cooperation, empowerment or entrapment between all layers of our culture. America is still the melting pot of the world. We must find a way, indeed to reach out to one another and thus all ethnic and religious environments with care, consideration and compassion.

As a spiritual community, we must become an example of inspired leadership and offer the hand of service and heart of cooperation. The often vitriolic, sharp rhetoric of political positions that have encouraged inflammatory and past negative responses needs to give way to kindness, respect, reasonable dialogue and respectful discussion.

The year ahead as the #1 brings a significant shake-up, a kind of "earthquake" of what's been done before and a thrust into the unknown. The #1 is a leader a "stand alone" number. Leadership under this energy can be fiery, forceful, forthright. If balance in the leadership of the nation is to be achieved, all of us must be willing to participate to bring acceptable solutions and allow for necessary changes. All the various realms of government and every single form of human and social intercourse are included.

Leadership in a #1 year is very often jerky and uneven. Symbolically it can be compared to unclogging a plugged drain that's been blocked

for a long time requiring expensive, painful and long term repair. This includes tax reform, the US health care system and our overly inflated entitlement programs across the nation that lock people into ways of living that become dead end and seriously restrictive.

The American people must be willing to make an internal decision ... to become a part of the solution for a more whole and effective functioning country, the vocal shouting and marching about what's "wrong" and what needs to change may be one way to suggest change, but there are many other ways as well.

At deep levels of our collective psyche, we must assume our place in the grand scheme of our national culture. Spiritual teachings tell us that at the very core of our being, we are connected ... we are one. Individually we appear separate but at essence levels of our being, we are connected. It's this connection that is our hope for healing for ourselves and for the world in which we live. All and each of us has a part to play in the year and years ahead. Not just one man or political system of some red/blue/green persuasion.

Perhaps a new slogan might emerge "Arms across America - hearts across the world."

Whatever changes may come will come because we get behind them and do our part to cooperate, to take responsibility for ourselves and our commitments in the world. It's somewhat like watching a gymnast perform amazing displays of strength or technical skill. We do not need to become a gymnast to participate in life but we do need to join our human family to be the change

we seek.

As we settle into 2017 beyond the official presidential inauguration January 20, the real work of our elected official(s) take root, form and function.

Our personal work will be to stay focused upon clear objectives, goals and align ourselves with worthy endeavors.

While we can work to heal breaches, mend bridges and forge new bonds with groups and people of every persuasion amongst us, it's not up to whoever sits in the official cabinet of the U.S. or the President that unites a nation. Yes, they play roles; they are a signal part of the major work ahead. We, however must be the examples as best we can of healing and reflecting our compassion from a place of connection to the Sacred. Thus do we serve and take up the energies of the number 1 to lead with a clear mind and an open heart.

GROWING INTO THE FUTURE 2017

Since the founding of the Temple of the Living God, September 25, 1960, the vision of its unfolding and its future progression is part of its very essence.

Our founding pastors, Revs. Ramon P. Noegel, Rev. Lamar Keene and Rev. Laurine J.C. Stroud drew together a cohesive group of seekers, searchers and metaphysically minded people into a fledgling spiritually progressive community.

As the church has grown across the past 56 years, the founders have moved on. Many, many 1000's of people have been involved in actively contributing their energies as a vital part of our mission.

As the years roll onward, powerful changes have taken place, yet the mission of the Temple remains the same. True to that mission we continue to offer an inspirational and inviting environment to all who come.

Our mission is to assist people in their spiritual awakening and to support them through education, healing, love and service.

A major part of the Temple's outreach into the metaphysical community has been its focus upon

Born and raised in Canada, Rev. Karmene Lusic has been a lifetime student of metaphysical teachings and spiritualism. Although brought up in the Lutheran faith, she nevertheless had an early interest in Eastern philosophies and esoteric teachings, which she continued to explore following her move to St. Petersburg in 1982.

Since that time, Rev. Lusic has pursued studies in a wide range of teachings, including Unity and Science of Mind, as well as other esoteric materials. In 2000 she was ordained at the Temple of Love and Healing in St Petersburg and later received her B.A. degree in Metaphysical Healing Arts from the College of Metaphysical Studies in Clearwater, where she also became certified as a Past-Life Regression facilitator and Reiki Master.

Rev. Lusic's professional work with both Unity and Science of Mind churches has been varied and longstanding, beginning in 1986. At Unity, for example, during the 1990's she served as Sunday School teacher, Sound Team member and Office Assistant. In her travels she has served as a musician, workshop facilitator and teacher for a wide range of programs as well as guest speaker at Sunday service. From 2006-2015 she served on

high level educational programs. These classes have helped countless seekers and spiritually minded persons find answers to the penetrating questions about our inner nature that are often only answered outside of traditional religious settings. Our goal in this endeavor will be to continue to develop and expand these directions thus far begun.

This year we install a new Assistant Pastor. We look forward to our mission becoming more fully implemented. Rev. Lusia brings an extensive musical background along with practical business skills which include teaching and administrative experience. Her infectious enthusiasm, both personally and professionally, will serve to attract new and on-going support in all areas.

the Pastoral staff at the Temple of Love and Healing. Her background in teaching includes such subjects as meditation, healing, psychic/intuitive development, mediumship development, past-life regression, dance and sacred movement, art, Mandala studies and more.

From 1990-2015, under her "Spirit in Celebration" Music and Healing ministry, she sang at many churches, retreats, nursing homes and assisted living facilities as well as provided individual healing sessions and counseling to those in need. She has also had the joy and privilege of musically opening for a number of Key Note speakers, including Alan Cohen, Barbara Marx-Hubbard, Eckhart Tolle and others. As a published songwriter and recording artist, music continues to be a fundamental element of her spiritual experience. We look forward to the many gifts she brings to her new role at the Temple.

Burning Bowl and New Year's Meditation

**Sunday January 1, 2017
11 am service**

Our country and our world have been challenged this past year as perhaps never before. We have been deluged with messages from media and others around us promoting fear, division and confusion; yet, we CAN choose to look ahead and move toward the new year knowing that there is, indeed, a deeper purpose to our lives and that we are guided by a Higher Power.

Spiritual teachings suggest that reviewing the content of our personal lives is vital to becoming open to receive inner direction, clarity and wisdom. This requires us to go within and from those inner-most recesses of our being, bring our needs, state our intentions and become receptive to hear and feel the Guiding Hand of God's Presence.

Each of us is invited to participate in this powerful ritual to:

- * Release the old and outworn
- * Open to the cycle of renewal in our life
- * Step confidently into the new year of 2017 supported by spiritual forces that guide us

In preparation for beginning the new year, consider what we seek to let go of, "forgive and forget". What do we deeply yearn to achieve or put into motion? During the ritual, each participant will place his billet in the consuming flames of the Burning Bowl assisted by Rev. Zemke and Rev. Lulis who will hold sacred space as each billet burns.

Following this cleansing, inspiring activity Rev. Zemke will then lead the congregation in a focused New Year Meditation to aid everyone in taking a gentle step forward in their very own personal new year.

After the service, refreshments will be provided in the lobby, while we dismantle the Christmas trees.

Please plan to join us as we close the old year and welcome the new!

- 2. What would it mean if we could read our DNA the way we read the letters on a page?***

This class will also offer a brief introduction to the Holy Kabbalah as we relate the information to twenty-two paths of wisdom on the Kabbalah Tree of Life. This is a fascinating study helping us to understand the question, "WHO ARE WE"? No previous study of the Kabbalah is required or even necessary.

It's all energy starting with atoms & God.

How many levels of consciousness did you go through to get here?

How many bodies did you have to pick up on your way from Heaven to Earth?

What level of consciousness are you using at the present time?

You are more than the physical body. Esoteric teachings tell us that your mind, emotions, and soul have their own bodies. These bodies are distinct and have their own capacities and functions which affect the physical body. Highly sensitive people have always been able to perceive one or more of these nonphysical bodies. Recent advances in science and technology are verifying their existence. Our day to day experiences confirms their reality in every area of your life.

MAP - MEDICAL ASSISTANCE PROGRAM

Saturday February 4, 10 a.m.-4:00 p.m.

Bring a bag lunch

\$85.00 which includes the book MAP (a \$20.00 value)

**Join Dr. Imsara for a workshop
focused on the effective use of MAP,
the Medical Assistance Program!**

MAP is a system, composed of the White Brotherhood, a team of guides/specialists on the inner planes, which empowers you to take your health care beyond what you currently know.

You will connect with your own personal medical team, composed of doctors and specialists on the inner planes who then help you to attain better health and emotional well-being.

It is very real, very efficient, and wonderfully effective. There is a protocol that goes with using Map correctly. The class will focus on the protocol as well as sharing tips and tools and processes that Dr. Imsara has stumbled upon in her many years of working with it.

The workshop will give you additional tips and tools you will continue to use for years. It is a very safe method to work with a team of physicians who are sourced on the inner planes 24/7.

We Will Learn:

- How we can work with MAP more effectively and with finesse'!
- NEW processes and techniques that help make our work with MAP easier and resolve blocks to growth
- How to make remedies and elixirs using the MAP system
- Using MAP during health care visits and in health care decisions.
- Learning and using kinesiology in conjunction with other systems, tools, techniques, past lives.

What Our Hands Reveal The Basics of Palmistry

8 weeks - starting Feb.7
7-9 p.m. \$80.00
Instructor Rev. Annette Mason

(can be paid in 2 parts or see teacher
for other arrangements. Scholarships also
available and must be applied for 2 weeks in advance.)

Bring a copy of both hands with you to the first class. We will begin right away to 'read' what they reveal about us.

The *non-dominant hand* shows the personality and our natural aptitudes we had at birth. The *dominant hand* shows what we've actually made of this life and what is most likely to occur in the future.

Comparing the two is one of the most fascinating aspects of palmistry because it shows us how we deal with change and life's events.

Palmistry can answer the following questions and more:

Are we likely to be lucky in love?
Will we be financially successful?
Are we a born artist,
realist, leader, dreamer?

Instructor Astrologer: Weiss Kelly

Is there a Man in the Moon, or is it a Woman?

No need to worry, we don't have to be an astrologer or even believe in astrology to enjoy and learn from this workshop, based upon the eight phases of the Moon each month.

Discover how we can make the most of each lunar phase, in the different signs of the Zodiac and how they can affect you each month based upon our own Birth Chart.

Learn to use these Moons as a timer by connecting with their energy and see how they can help us manifest our dreams. Just watch the Magic happen! A copy of your birth chart will be included along with a 3 month blank calendar which we will complete during the workshop. Call Weiss at 480-600-7424 to register and give her your Birth information (required before the class)

Weiss Kelly is a Certified Professional Astrologist & a syndicated columnist. She appeared on TV and hosted her own weekly horoscope cable show on Channel 9, now Bright House. She is the secretary for the American Federation of Astrologers and was VP of the St. Petersburg Astrological Society. After spending 14 years in Scottsdale, Weiss has returned to Fl. *Following the Path of the Heart
An Introduction to the Mystery of Love*

With Robin Harman

Shamanic Explorer

Saturday February 25, 9:30-6:00

Early Registration \$125 After February 5: \$150

This day is an invitation to draw from the generative fuel of the Pachakuti Mesa shamanic tradition to explore the heart in its untold aspects.

In the context of a brief introduction into the power of the mesa of Peruvian shamanic curanderismo, we will work with practices to

- Develop a more respectful relationship with our body
- Excavate shadows and reserve in our love for our physical selves
- Learning practices to enhance our *presence* in the physical form
- Engage as silent witness to heal cellular memories of pain and loss

One beauty of awakening consciousness stems from the immeasurable creative nature of the Sacred. It moves through the universe in all its myriad infinite forms and in its wake offers us limitless access to inner knowing. Not only do we reside in the natural world, providing an immense library of essence and aliveness, a world lives within our own skin. Our body as temple. Our heart as sanctuary.

Bring your questions as we examine our bodies of wisdom. Inherent in our make up dwell mysteries beyond imagining. We will offer ourselves to listening. Our attention will move between 1.) awareness of our physical heart and 2.) knowledge of the refuge it provides as a compassionate inner space connected to All that is.

Since our time together is ultimately directed from Spirit and the heart-filled nature of individual participants, please note that the inner preparation begins the moment you commit to the teaching. Let us weave our energies in good way, and allow our guides and allies to assist the unfolding of our shared journey.

"There are things known and there are things unknown, and in between are the doors of perception."

--Aldous Huxley

Robin Harman has apprenticed for 23 years in the Pachakuti Mesa tradition with don Oscar Miro-Quesada, sanctioned as a shamanic teacher and master ceremonialist. Her teaching is fueled, as well, by in-depth consciousness training with other revered teachers. Educated in music, religion and the arts, Robin's commitment to infusing an essence of Spirit into unwavering Service to Mother Earth and its populations colors all that she does. She works with a focused sense of humor, play and wonder to assist others in distilling the depths of their sacred knowing.

Chakra Balancing

January 21, 2017 10:00 am - 12:00 pm

In the yogic tradition, the chakras are known as wheels of spinning energy found throughout the body. Usually, energy has the ability to flow through us with ease. However, the situations we encounter in life can often leave our energy blocked and unable to flow freely. Join **Dr. Ronald K. Porter** in a workshop that explores both the meaning of the chakras and subtle energetic body, and engages participants in a yoga practice specifically focused on balancing the chakras. **Please bring a mat if you have one. Suggested Love Donation: \$15.00**

Tantra: The Yoga of Shiva and Shakti

February 11, 2017 10:00 am - 12:00 pm

In the West, Tantra is often understood as heightened sexual practices. This simplistic definition misses the deeper definition of Tantra: the balancing of male and female energies in the body to enhance consciousness, creativity, and feeling. Poet Audre Lorde called "the erotic," the ability to tap into and focus our creative forces, not just for the purposes of sex, but for the enhancement of our overall creative lives and communities. Join **Dr. Ronald K. Porter** for an exploration of Tantra and a Yoga Practice meant to allow you to tap into your creative abilities and enhance your joy.

Please bring a mat if you have one. Suggested Love Donation: \$15.00

The Five Languages of Love

February 4, 2017

11:30 am - 1:30 pm

We most often give love to others in the ways we prefer to receive love. While all the Love Languages should be a part of your relationships, people often have dominant preferences. This can unknowingly cause a disconnect when the giver and recipient have different love languages. The concept is simple and can have a powerful effect on how you love, and serve others.
