# Reflections

## *Choosing To Be Conscious*

Rev. LeRoy Zemke, Pastor

**You must train your intuition - you must trust the small voice inside you which tells you exactly what to say, what to decide.**

**Ingrid Bergman, Actor**  
8/29/15 - 8/29/82

**You and I are essentially infinite choice-makers. In every moment of our existence, we are in that field of all possibilities where we have access to an infinity of choices.**

**Deepak Chopra**

**We can't always control the feelings that we feel. But between our feelings and actions lies the power of our will to choose the ways in which we'll express those feelings.**

**Judith Viorst, *Imperfect Control***

**It is our choices ... that show what we truly are, far more than our abilities.**

**J.K. Rowling (Harry Potter and The Chamber of Secrets)**

**“Consciousness is the state or quality of awareness, or, of being aware of an external object or something within oneself. It has been defined variously in terms of sentience, awareness, qualia, subjectivity, the ability to experience or to feel, wakefulness, having a sense of selfhood or soul, the fact that there is something “that it is like” to “have” or “be” it, and the executive control system of the mind.**

**Despite the difficulty in definition, many philosophers believe that there is a broadly shared underlying intuition about what consciousness is. As Max Velmans and Susan Schneider wrote in *The Blackwell Companion to Consciousness*: “Anything that we are aware of at a given moment forms part of our consciousness, making conscious experience at once the most familiar and most mysterious aspect of our lives.”** From Wikipedia

**Despite the broad range** of consciousness definitions, it appears to exist as a realm/world of externally interpreted experiences or internal possibilities within us and/or surrounding us. The learning about it and how it functions as well as how it is individually understood is the unique work of a lifetime.

**Choice also, is a unique gift** of the soul. We make choices for many hundreds of thousands of reasons. We choose colors, smells, foods, clothing, places to live, kinds of people to associate with and an unknown myriad of other internal and external life experiences unknown thousands of times a day.

**In the 21st century** brain science has matured and offers us quite literally an amazing panorama/plethora of information about our choices in life, every area of our lives. Emotional responses fall under how our brain operates. Even though we think we can control our responses, it is definitely believed to be a major series of automatic (unconscious) responses to how we function in a 24 hour day (even during our sleep cycles).

**Some brief examples follow:**

**We think we choose a time to sleep.** Research indicates that our brain actually chooses the time we go to sleep, regardless of our preset or predetermined preference. Of course we can influence that choice by behaviors that either support sleep or interfere with sleep.

**Hunger is a major function of the brain.** When our brain detects a need for nutrients, a bio chemical (physical) signal goes to our stomach as well as other parts of the body to let us know it's important to put fuel, food or nutrients, in the body.

**Yes, we can choose to eat healthy** food once we've learned what our body chemistry likes or dislikes. If we eat too much spice, our stomach rebels and says “no”. Or if we over-eat sweets or too much starch or too much protein our body signals discomfort, gas and pain. We, at the conscious level of our life say ... I will eat fruit, not candy. Or, I will drink water and fruit juice rather than some other liquid known for its toxicity to the body perhaps a too sweet soda, etc.

**Choices are a part of the way** we learn discernment, gain balance and allow ourselves to keep deepening into the realms of our own unique consciousness.

**We may choose** to pray and discover an inner

strength that is available to us in the realm of prayer. While we may have “heard” from teachers, or a family member, a priest or mentor that prayer offers specific values, we learn that in this connection, in the moment of prayer, we open up to an inner world of revelation. and spiritual insight and perhaps inspiration that is its own gift.

**When we are more conscious we discern that all choices we make have consequences.**

**Overeating can cause major health** issues, not just excess over weight. We discover that whether we eat moderately, or more balanced meals, portions and combinations we feel better. We become more conscious or choose to be more conscious in eliminating the struggle around the food issue by selecting items that nurture and bring nutrition into balance. Many who have struggled with food addictions and the almost unimaginable choices we have to make, learn how important it is to be consistent with a wise choice. In this example we learn how to work with our brain chemistry, our “food issues” and our choices in a caring and responsible manner.

**How many of us** want to change a specific behavior? How often do we seek to add a new behavior or pattern? One could add many variations to this list.

**In answering the question(s) above,** it’s my perception that another major dimension of our internal makeup is the component called intention.

**Intention is sometimes described** as a deep internal yearning arising from the mind or the mental level of our nature . It is also a deeply focused mental image/idea/thought which is infused with the essence/or spiritual forces of our being with which we have become aligned.

**When intention is clear and aligned with Spirit,** the choices we make to accomplish any goal is much more powerful. I believe such choices then can materialize in the outer day to day world more fully, more completely, more in a state of balance with our being.

**Choices then when aligned** with our deep intention become more easily or clearly understood. Our brain will still “issue” impulses. But, we will possess a way to work with our brains/impulses/signals and stay “on track.” We will be able to go forward toward an idea or plan or an inner goal to allow the change we seek.

**When we are conscious,** we are able to stay present to what is important to us, individually.

**Using the image of food** again, think of a smorgasbord of some 50 plus choices to select for a meal. If we have little wisdom about the choices available on the table, we try to taste too much and the result is that we make unwise decisions and become uncomfortable or worse, ill.

**If we are aligned inwardly** with our intention to choose those tools which support our health, we will select the foods that are indeed the best for us. We remain conscious and thus support our overall health in an on-going way or manner!

**In summation,** choice emerges out of an infinite range of possibilities. Where do we place our thoughts for the day, the week, the month, the current moment.

**As we deepen our internal relationship** to Spirit or the Universal Presence we call God, we learn that we are held in the Everlasting Arms of Spirit always. A major part of being conscious is about discovering that the Infinite Presence of Life is always available. Our work is to slowly move outside of our ego choices and allow Spirit to be available in and throughout our life experience.

A biblical quote seems appropriate here. *“Trust in the Lord (God) with all thine heart and lean not on your own understanding.”* Proverbs 3:5

## DREAM ANALYSIS A WAY TO LISTEN TO GOD

Instructor Louise Fimlaid  
Saturday September 9, 12:00-3:30 p.m.

**BRING A DREAM**  
\$20

**Throughout the Bible** there have been those who dreamt and those who would interpret the dreams. Dreams reveal forgotten depths of the human being and our connection to the spiritual world that surrounds us. These dreams are messages that come from our higher self which can guide us in resolving inner conflicts. When we sleep, we block out distractions, and at that time our subconscious and soul finds a way to make us realize what is really going on in our lives and how it is affecting us.

**This workshop** is designed to teach us how to interpret our dreams. Many times there is a dream that we repeat over and over. The planet Neptune, which is responsible for our imagination, sets the stage and is the script writer. The game is to find the clues, which allow us to solve the mystery. Knowing this technique will tell us the hidden message that belongs to only you.

**Without this knowledge** and tools to decipher these dreams, we are left with only a movie that entertained or scared us. What images are in our dreams appear there as props. Each of us is everything in our dream and everything has a special meaning relating to what we are dealing with at the present time. The use of this information will allow us to understand what your inner self is attempting to reveal to us.

*A prerequisite to attend the class is to BRING A DREAM. In class each one will draw his/her dream on a very large piece of paper for the class to see. Louise will take us on a dream walk, which will show us how to interpret future dreams.*

## EXPLORING "THE LAW OF ONE"

Wednesday September 13  
Wednesday September 20  
7 - 9 p.m.  
"The Law of One"  
\$20 includes both classes

This quote describes "The Law of One:"

*"Consider, if you will, that the universe is infinite. This has yet to be proven or disproven, but we can assure you that there is no end to yourselves, your understanding, what you would call your journey of seeking, or your perceptions of the creation.*

*That which is infinite cannot be many, for many-ness is a finite concept.... In an infinite Creator there is only unity....In truth there is no right or wrong...*

*You are everything, every being, every emotion, every event, every situation. You are unity. You are infinity. You are love/light, light/love. You are. This is the Law of One."*

In two sessions we will explore spiritual growth channeled in Book 1 of "The Law of One."

This includes information about the pyramids, the presence of alien beings on earth, healing with crystals, telepathic communication, Atlantis, Venus, Mars, the origin of human civilization, and more.

Attendees may order Book 1 or the five volume series comprising "The Law of One" from Miracles Book Store, or it may be downloaded for free online.

*A guide to spiritual fulfillment, channeled  
by Jesus through Jon Marc Hammer*

Join us for this powerful daytime discussion course as Jeshua ben Joseph (Jesus) speaks to us through channeled recordings which create an incredibly intimate and direct experience.

Through Jeshua ben Joseph, brother and friend, Jesus takes us through each step on the path to complete spiritual awakening. He gives us everything we need as he gently guides us through the transition in mind, heart and soul from earth-minded to universal awareness. He talks of the world as it is today, the chaos and cruelty that we see daily, and gives assurance for a peaceful future and the amazing potential of every human being.

On this exciting journey, we will learn truths that we never dreamed possible. We will learn of our own divinity and the powers we possess, but do not yet comprehend. We will learn to understand and accept our place in the heart of God. Finally, we will awaken to reality, spiritually aware, loving and joyful.

## BEHIND THE ROLES WE PLAY

Saturday Sept. 16, 12:30-3:30  
\$20

Instructor Gail DiNoia

Did you know that key events occur in our lives every 7-9 years? These events are often associated with roles we play at various stages of our life---and behind each role are beliefs about how we should act.

In *The Four Agreements*, Don Miguel Ruiz says that, as children, we became “domesticated” by our parents, teachers, and ministers. In other words, we learned how to act in order to please others, gain rewards and avoid punishment. Eckhart Tolle in “*A New Earth*” tells us: “Your thinking--the content of your mind--is conditioned by the past: your upbringing, culture, family background, etc.”

We might be surprised to discover that we may still hold beliefs that are no longer true for us. If we want to uncover thinking patterns behind the masks we wear, do not miss this thought-provoking and fun-filled workshop. Together we will:

- Identify key events in our life
- Associate the events with roles we have played
- Review beliefs that were established long ago
- Determine what beliefs may no longer truly serve us
- Learn how to release old beliefs
- Complete a personal “coat of arms” about our life

Gail DiNoia is a workshop facilitator, coach, teacher, and writer. She has led workshops on various topics, facilitated caregiver support groups, taught metaphysical classes, and led church-sponsored study groups. She has been a student of metaphysical studies for the past 45 years and has completed many diverse courses of study including Numerology. Gail was an active member of The Temple of The Living God for several years prior to moving to Sarasota FL.

## OCTOBER METAPHYSICAL FILM FESTIVAL

Thursday, October 5 - 26 11:00 am \$10 per class  
Facilitator: Rev. Betty Pressly

### OCT 5 - YOU ARE THE UNIVERSE

by Deepak Chopra

*This film was shown on PBS.*

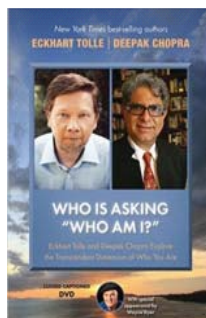

This film explores the mystery of consciousness and the material world. It answers the questions we ask like [who are we? why are we here? does the mind create reality?] using science to back up our answers. It will make us all reconsider our ideas about our place in the universe and make us think and wonder about our relationship with the cosmos.

### OCT 12 - WHO IS ASKING "WHO AM I?"

by Deepak Chopra, M.D., Eckhart Tolle

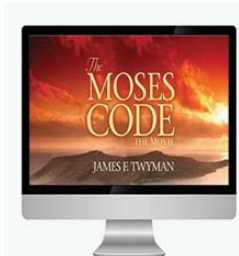

Eckhart Tolle and Deepak Chopra Explore the Transcendent Dimension of Who You Are

Over the course of two hours, these world leaders in thought cover such profound topics as mindfulness, how to fully engage with the present moment, thought's ability to infect the mind like a virus, the difference between a thought-based entity and a presence-based entity, the five ancient causes at the root of all our suffering, and how to identify with our true self and not simply our self-image.

### OCT 19 - THE MOSES CODE

by James F. Twyman

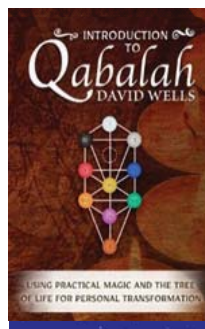

Online Video

Following the enormous success of *The Secret*, a new film is now released that takes the Law of Attraction and returns it to its rightful place -- the soul. Drew Hariot, the director of *The Secret* and executive producer of *The Moses*.

### OCT 26 INTRODUCTION TO QABALAH

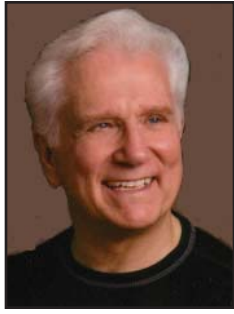

by David Wells

Qabalah is a path for personal and spiritual growth, and a body of magical knowledge that is learned not just through information given, but also through exploration taken and through experience. The Tree of Life is the central organiza... Understanding the system of the Tree of Life is integral to being able to use Qabalah in a practical way to look at the different areas you need to devote attention to. Learn about the 10 Sephiroth that make up the Tree in this lesson. These are spheres of energy, each with their own characteristics and ways of working with them.

# Conscious Prosperity in the 21st Century

It could be said that the act of giving is less of an intentional act, but more about the state of our mind.

As a spiritual community, the Temple teaches that as we give, so we receive. What we, as a church, give our members is just as important as what the members give or share with the church in return.

In the 21st-century, where there is an increasing attention on mindful awareness, we begin to release some of the old patterns of thinking where specific amounts were held to be firm. Some believed that only prayers and various rituals would bring one prosperity.

The concept of giving a tithe (10%) to the person or church from which we receive our spiritual nourishment goes back to early Biblical times and before. In the 21st century, it appears to be true that when we are giving from a generous heart at all times ~ we are practicing prosperity consciousness. Additionally, our compassion, goodwill and kindness, as well as our monetary gifts, support this realization!

When we are at home, we learn to reach out from our hearts to family members, sharing our generosity and selflessness. As we learn and share with our family members, we comfortably reach out to friends and organizations, including churches or other spiritual affiliations. Eventually, we reach out further into the community and the world itself.

The Temple's vision is to continue to spiritually nourish our members and friends, as well as those who live in other states and countries. Our goal is to bring the experience of the spiritual teachings of the Temple to the larger spiritual community. We trust that each will find value in our overall message, including the gifts our ministers and teachers offer.

When one tithes to/shares with a spiritual community, their gifts support the ministry staff, and all who are actively serving the church and its congregation. This effort of each person working together supports a strong spiritual community.

When and as one learns to contribute in a consistent, positive manner, it reminds each of us to trust that God is the Source of all our blessings. Additionally, it reminds us to trust God to provide for all of our needs, always putting God first before anything else. As we discover our unique relationship to Source, gratitude emerges daily in every aspect of our life.
