## **Growing, Expanding, Fulfilling**

*“Be not conformed to this world: But be ye transformed by the renewing of your mind, that ye may prove what is that good and acceptable, and perfect will of God.”*

**Romans 12:2**

As **awakening spiritual beings** we can incorporate the following ideas into our expanding personal lives, into the big picture of who and what we truly are.

**1. Be an example of positive thinking.** When you are faced with a challenge, a conflict, or a difficulty, choose to see (image) the challenge met, the conflict resolved, or the difficulty surmounted. First visualize the positive possibilities - then feel them being accomplished - and finally, act in a way that moves in the direction of the positive, desired resolution.

**2. Realize life is an ongoing process.** The inner work of changing habits of thinking, of being open to a new or different viewpoint may take time. Begin today where you are. Observe your reactions, your impulses, and if you are not coming from a place of affirmation for yourself or another, try immediately to reverse your reactions or impulses to fit into the big picture. Haphazard or halfhearted efforts won't produce significant results. Be willing to be consistent and disciplined.

**3. Support your life with positive interests, activities and people.** Choose positive books, movies, places to visit. Become active in an inspiring church. Commit yourself to others from a place of love, but not duty ... from a place of giving, but not obligation. Allow yourself to have fun, relax and enjoy your experience of life as it unfolds for you.

**4. Give your best, to yourself, to others, to life.** No lukewarm, indifferent efforts. No quasi-excited involvements. Give quality time, effort and service. Whatever you do, do well and unstintingly. The more you give of your best, the more powerful, positive and rewarding your experience of life will be.

## **Abundance Is Available to Everyone!**

The spiritual substance from which comes all visible wealth is never depleted. We live in a sea of spirit, inexhaustible mind substance which daily surrounds us and is available as close as the very air we breathe or the flowing blood through our brain and our body.

Think not that your job is the source of your wealth! Yes, it is the door through which money flows toward us. Yet, abundance is in our consciousness, the realm of ideas and creativity. Once ideas become physical reality, we are able to see them and they become a tangible reality.

Consider a demonstration of how ideas work! We learn about a need in our world, a family, a single person. We contact a person or persons to tell them about our need. Soon, they respond, offer help, support and a plan grows and becomes reality,,,! Once we share our ideas, they take on form and become a measurable solid reality.

Such is the way of abundance in the unfolding of our life.

**LeRoy Zemke**

The graphic features a stylized tree with a dark brown trunk and branches. The canopy is composed of numerous small, colorful leaves in shades of green, orange, and white. Above the tree, the words "LIVING LEGACY TREE" are written in a curved, golden font. Several white birds are depicted in flight around the tree. At the base of the trunk, there are four small, golden, leaf-like shapes.

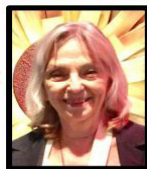

The **Living Legacy Tree (LLT)** is a way to provide a tribute/memorial by members and friends of the Temple. It is a tangible way for those who would like to support the vision, future growth and expansion of the Temple ministry. We invite you to pick up a complete brochure offering information for your individual participation.

### The Leafaway Plan

In addition, we welcome you to consider using **The Leafaway Plan** to commemorate transitions, weddings, births or other special events and milestones on our Living Legacy Tree. This plan allows for you to participate individually or as part of a group, making your participation affordable and your tax-deductible contribution fit your budget.

## Astro – Insights for May and June

by Carol (CJ) Bonni

### Overview for May:

The Full Moon on May 16, 2022 occurs at 25 Scorpio opposite the Sun at 25 Taurus and it is a Lunar eclipse. Lots of fixed energy under this Full Moon. Saturn at 24 degrees of Aquarius (also a fixed sign) squares off against the Sun/Moon opposition. People will be digging in their heels, defending the status quo. Tune into dreamy inspirational Neptune in its own sign of Pisces showing us how to relax (hint: Breathe) and allow everyone the right to express their opinions. Uranus in close alignment to the Sun gets into the action by reminding us that all change is inevitable, and the impetus is always toward the future.

Two weeks later the New Moon occurs in happy-go-lucky Gemini on May 30, 2022. There is a feeling of expansive optimism, thanks in part to Jupiter and Mars in Aries adding their support to the good feelings generated by the Gemini Moon. The message of this New Moon is get happy, and try something new and daring.

### Overview for June:

Good feelings and optimism continue under the June Full Moon at 23 degrees of philosophical Sagittarius and the Sun at 23 degrees of inquisitive Gemini on June 14 at 7:52 AM. People want to get together and socialize under the influence of this Full Moon. There will be lively discussions and perhaps new insights and novel ideas may be shared.

New Moon occurs on June 28 at 7 degrees of Cancer. The energy of the New Moon (in any sign) is always conducive to starting something new. This New Moon urges us get out in the garden, get our fingers in the soil, plant some seeds. The most important part of the planting process is to love those seeds, those tender new shoots. Every living thing responds to love. And this New Moon is all about love.

### Here is your message for May and June:

**Aries:** Mars and Neptune are doing a close happy Moon Dance under the May Full Moon Eclipse in Scorpio. Explore the hidden mysteries of your own shadow self. May New Moon in Gemini also has you exploring your dark side. In June you have the blessings bestowed by Mars, Chiron and Jupiter all in Aries, sending you messages of love and healing.

**Taurus:** Under the Full Moon Eclipse in Scorpio in May you might be feeling slightly off-balance. Meditations on the hidden meaning of the Eclipse will bring a deeper understanding of Self. Full Moon in June in Sagittarius urges you to get out and socialize. The message for you under the New Moon in Cancer is to protect whatever you value and watch it grow.

**Gemini:** Full Moon/Eclipse in Scorpio in May. Meditate on the hidden mysteries of the eclipse, then watch your dreams that night to find the answers you have been seeking. You are energized by the New Moon in your sign at the end of the month. Your creativity is piqued now. June Full Moon in Sagittarius reflects all the best sides of Gemini. June New Moon in Cancer highlights the qualities of nurturing. Start with yourself.

**Cancer:** The Full Moon/Eclipse in Scorpio in May heightens your sensitivity and your emotions. Use the energy of the eclipse to examine your dark side. The New Moon in Gemini in May helps to lighten your mood and everything looks brighter and happier. In June the New Moon in your sign adds to a feeling of anticipation. Full Moon in June occurs in Sagittarius, leading you into a deeper search for Wisdom.

**Leo:** The Full Moon/Eclipse in May will have you wanting to hide your natural outgoing self. This is a time to be silent and withdraw from others. The insights you gain from this time of silence will be worth it. The New Moon in Gemini at month-end will have you back to your fun-loving self. Full Moon in June in Sagittarius encourages you to examine the insights gained at the last Full Moon. New Moon in Cancer in June encourages you to tell loved ones how much they are loved.

**Virgo:** Full Moon/Eclipse in May in Scorpio. Allow the energy of this eclipse to help you uncover your hidden self. Much can be learned by meditating on the Shadow Self. New Moon in May in Gemini helps to lighten the heaviness of the Eclipse. Full Moon in June in Sagittarius helps put things into perspective in a more optimistic light. New Moon for June is in Cancer and you will want to shower your loved ones with love.

**Libra:** Full Moon/Eclipse in May in Scorpio. Meditate on your shadow to uncover hidden things about yourself. Expect some surprises. New

Moon in May in Gemini and you are feeling lighter and more optimistic. June Full Moon in Sagittarius shines its light on the search for Truth. Some of the insights gained during the eclipse last month may reveal a higher Truth through dreams. New Moon in Cancer has you focusing your love on your home and your family, whatever form that family may take.

**Scorpio:** Full Moon/Eclipse in May in Scorpio. You are searching for that transforming experience and the energy of this eclipse is the perfect way to explore that experience. New Moon in May in Gemini has you seeking out new ways to express your creativity. Full Moon in June in Sagittarius urges you to follow your own inner wisdom. New Moon in June in Cancer urges you to explore your roots, your history.

New Moon in May in Gemini message to you is to start a new creative project. June Full Moon in Sagittarius urges you to find your own path to Truth. You have the answers within you. New Moon in June in Cancer shines its light on matters of home and family history.

New Moon in May in Gemini continues the theme of exploring your dark side (your inner twin). June Full Moon in Sagittarius shines its light on the search for Truth. This is the message for you Pisces: Find your own highest Truth and live it.
