The Gifts of Inner Freedom

“Be ye transformed by the renewing of your mind.”

Romans 12:2

Your real nature is calmness. You have put on a mask of restlessness: the agitated state of your consciousness resulting from the stimuli of feelings. You are not that mask, you are pure, calm spirit. It is time you remember who you are: the blessed soul,

a reflection of Spirit. Take off the mask of feelings. Face your Self.

The Divine Romance

Letting go gives us freedom, and freedom is the only condition for happiness. If, in our heart, we still cling to anything - anger, anxiety, or possessions - we cannot be free.

Thick Nhat Hanh

In a constantly changing world, the great challenge is to find something called by saints, saviors, and mystics alike - Inner Freedom. What is this mystery? What is this great yearning that we have to step away from the world, or if not step away, live in it in such a way we can unburden ourselves from the daily treadmill, the incessant demand of cacophonous voices, vices and vicissitudes that beg, nay plead for our constant attention.

Our lives are beset by human demands, needs and unending distractions. Yet all the teachers of the ancient wisdoms speak of the power of stillness, a definite letting go of so much of our attention on the outer and extraordinary demands of the seeming importance of the human world.

In our day to day human life, we often speak of our duties, our obligations, our responsibilities. If we have a professional job/work or business, we have duties to perform, to attend to in ongoing manner. Duties or obligations as well as responsibilities carry with them an internal agreement or commitment to follow through, to get the job or work completed. Depending upon the situation we may feel good or not about the responsibilities thus involved.

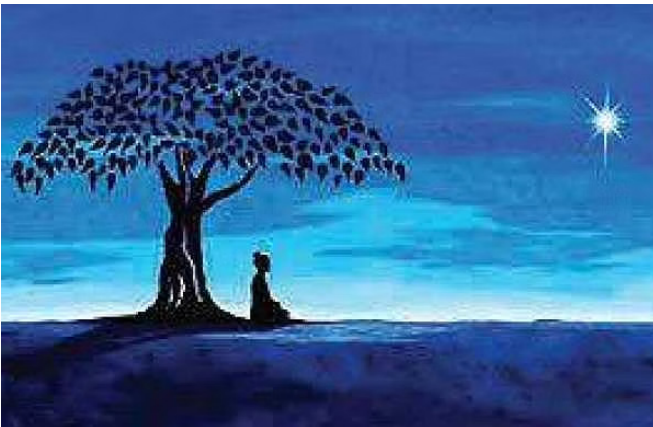

If we feel good about our commitment, then, when the specific task is done, there is inner satisfaction, a kind of pleasure in seeing a goal realized. That brings freedom, a freedom from the obligation or duty. As that happens, we find within ourselves a feeling of fulfillment and that something worthwhile has been accomplished.

Imagine, however, that in the doing or completing of the responsibilities we internalize the needed obligations in a negative manner. We interpret the duty we agreed to perform as something we dislike or resent having to follow through with in a timely or appropriate manner.

Often I've noted that we may develop a headache, backache, or stomach ache because our resistance to such an internal agreement is so strong. Or imagine that we actually follow through with the responsibility and feel anger, or something stronger such as hatred, or bitterness; or even wishing harm toward ourselves or toward another person, place or thing. One can easily see or sense where such internal thoughts and reactions can lead us. The entire atmosphere then becomes very negative ... whether it is our work or a personal relationship, or our psychological/mental process in dealing with some or all of life's more difficult or perceived to be difficult circumstances. Inner freedom is a most precious sacred realization that emerges when we really allow ourselves to connect with the Spirit, the Life Force within us.

Spiritual essence is already profoundly and powerfully present. We do not have to search for it. Thus, the real task is to remember that the Spiritual Power or Presence is always available. In many religious settings, churches and environments, the message is offered. "Call upon me ... and I will deliver you." Psalm 50:15

The real difference is that in traditional religions, God, or God's Presence is perceived to be external, outside of us, above us, beyond us, always exterior. Metaphysical teaching says, God is within us, inside as a divine spark often suggested as within the heart, or heart center of the human being.

Astro – Insights for July and August

by Carol (CJ) Bonni

Overview for July:

July Full Moon occurs July 13th 2022 at 2:37 PM EDT at 21° 21' of Capricorn, Sun at 21°21' Cancer. The Full Moon is in a tight conjunction to Pluto. Pluto is all about transformation. Use this energy to transform any area of your life that needs to be transformed. The Full Moon is in a difficult aspect to both Neptune and Venus, suggesting that nothing is as it seems, details are cloudy and misleading and the friends we thought we could count on may not be available. Uranus in Taurus forms a very supportive aspect to the Capricorn Full Moon, helping us all shake out the cobwebs and get out of the rut we may have been experiencing.

New Moon for July occurs at 1:55 PM EDT on Thursday the 28th at 5°39' of Leo. It's always a good idea to start a new project under the New Moon of any month. This happy and playful Leo New Moon is supported by a very happy aspect to Jupiter. If you have an important and potentially beneficial project you have been putting off, stop procrastinating. Do it now!

ARIES: Jupiter and Mars are both in your sign where they continue to imbue you with a sense of derring-do. You are feeling self confident and lucky. Make good use of this positive energy while it lasts.

TAURUS: The Moon in no nonsense, get-it-done Capricorn encourages you to get all your projects – especially those that have to do with security – to completion. You get assistance from Mars and Uranus in Taurus as they get rid of whatever gets in the way of the process of completion. The force is with you!

GEMINI: The full Moon chart shows Mercury in Cancer opposite the Moon in Capricorn. You are thinking about and talking about all matters pertaining to the home. Enjoy all the comforts of your home now and make it your sanctuary.

CANCER: Moon in Capricorn is reflecting the light of the Sun in Cancer. This Full Moon is bringing out the best in you. Uranus in Taurus is helping you get out of the doldrums you may have been experiencing lately. Neptune in Pisces brings inspiration through dreams. This is your time to shine!

LEO: The Full Moon Chart is full of water and earth energy, not a lot of fire. The exception is Chiron and Jupiter in Aries their healing energy to the mix. This is good for you Leo. Spend some time outdoors during this Full Moon and soak up all the Love!

VIRGO: The Full Moon in down to earth and practical Capricorn will energize you and bring out all your best qualities. Pluto in close proximity to the Full Moon focuses on transformation. Uranus and Mars in Taurus bring sudden unexpected changes. Neptune in Pisces brings inspiring dreams. Enjoy!

LIBRA: The energy of the Full Moon in Capricorn and the Sun in Cancer suggests a calm and steady time. Most of the rest of the planetary energy is about change and upheaval. Libra loves to bring harmony out of chaos. This is your chance to do what you do best Libra!

SCORPIO: The brightness of the Full Moon in Capricorn in close proximity to Pluto will bring some illumination to your deep insights. Mars and Uranus in Taurus form supportive energy to both the Sun in Cancer and the Moon in Capricorn suggesting that the changes that you have been hoping for can be realized now. Use your inner strength to help bring about the changes.

SAGITTARIUS: A Full Moon is always a good time to bring projects started recently to culmination. Mars and Uranus in Taurus will help this process of completion by clearing whatever is blocking you. Your innate optimism is helped by Jupiter in fiery Aries, giving you the confidence to do what is being asked of you. You can do it!

CAPRICORN: The Full Moon in Capricorn with Pluto in close conjunction enhances your power to overcome adversity. Mars and Uranus in Taurus stand ready to shake things up and get rid of what is not working in your life. You have the inner strength and determination to bring about successful changes. You are blessed.

AQUARIUS: Full Moon in Capricorn, Sun in Cancer. Use the energy of this Full Moon to tie up loose ends, bring anything unfinished or incomplete to an end now. Use the energy of Mars and Uranus in Taurus to help in unexpected ways. Change is inevitable, try to relax and go with the flow. Feel the Love.

PISCES: Full Moon in Capricorn, conjunct Pluto; Sun in Cancer. Pluto's job is to bring about transformation. Mars and Uranus in Taurus will assist you to make whatever changes are necessary to aid in the transformation process. Use the power of Imagination to visualize the changes you want in your life. Embrace change!

Overview for August:

August Full Moon occurs at 9:36 PM on Thursday the 11th at 19°22' Aquarius and Sun at 19°22' Leo. It is also a lunar eclipse, which adds to the stress. Moon is closely conjunct Saturn at 22°06' Aquarius. Saturn is opposite the Sun where it acts as a deterrent. Mars and Uranus in Taurus form a difficult energy pattern to the Sun / Moon axis. Neptune forms a stressful aspect to the both the Sun and Pluto, adding to the paranoia. Overall, this is a very stressful Full Moon. People will feel edgy, distrustful and anxious.

The energy is much better at the **New Moon** on August 27 at 4:18 AM at 4°04' Virgo. Mars in chatty Gemini, Mercury in sociable Libra and Venus in "let's party" Leo adds up to a wonderful day to start something fun and rewarding. Even the Sun/Moon in Virgo is willing to set aside all the to-do lists and join the festivities.

ARIES: The Full Moon is always a good time form completing anything left undone last month. The Sun in Leo forms a very easy and pleasant aspect to the healing energy of Chiron in Aries. And the Moon/Saturn in Aquarius also forms an easy and supportive aspect to Chiron. Jupiter in Aries is dynamically connected to Venus in Leo bestowing good luck and blessings. You are abundantly blessed.

TAURUS: The message of the Full Moon is all about completion. Is there a project you have been putting off? Now is the time to complete it. Use your power of Imagination through the energy of Neptune in Pisces to visualize the end result. More changes are made possible by the energy of Uranus and Mars in Taurus and the transformational energy from Pluto in Capricorn. The key here is all about being open to the changes. Go with flow.

GEMINI: The two planets considered to be "lucky" are Jupiter and Venus. Jupiter in Aries gives the courage to take daring action and Venus in Leo says a social gathering will bring luck and blessings. Your Gemini Sun is placed at the midway point between these planets. Look for the good and praise it!

CANCER: The only planet in a water sign at the Full Moon is Neptune in Pisces. Use your power of visualization and imagination as a focus the changes you want to make in your life. See the ebb and flow of the ocean as a metaphor for your life. Float on the waves.

LEO: Use the transformational energy at this Full Moon to bring whatever is not working in your life to completion. Outgrown relationships, anything that is broken, or perhaps a project that is nearing completion. Neptune in Pisces inspires creativity and awareness of the interconnectedness of all things. Make positive changes in your environment.

VIRGO: The Full Moon message for you is to empty the closets, get rid of anything that no longer serves you. Uranus and Mars in Taurus form supportive aspects to your Sun and help you to make the necessary changes. More help in this process of transformational changes comes from Pluto in Capricorn. Liberate yourself!

LIBRA: Change is the keyword now. The eclipsed Full Moon in Aquarius urges you to examine what areas of your life need to be transformed. Mars and Uranus in Taurus also bring opportunities for making positive changes. These are turbulent times. Stay focused, stay balanced.

SCORPIO: The Full Moon chart presents many challenges and many opportunities to make changes in your life. Wrap up any unfinished projects, get rid of anything that is not helping you reach your goals. Mars and Uranus in Taurus present sudden unexpected ways to help clear the deadwood out of your life. Neptune connects to Pluto in a way that will deepen your insights and meditations. Look for the Blessings in all things.

SAGITTARIUS: The Full Moon is a time for completion. Close the door on those things that no longer serve you. Mars and Uranus in Taurus will shake up your life in unexpected ways that will probably feel upsetting, but ultimately the changes they bring will help get rid the extraneous and unneeded “stuff” that keeps you from realizing your potential. Onward and upward!

CAPRICORN: The Full Moon in Aquarius urges you complete anything left undone since last month. New doors are opening and new opportunities await you. Mars and Uranus in Taurus will help you make the changes that are needed for your progress on the path. Keep your attention on the goal.

AQUARIUS: This Full Moon in your sign is especially meaningful for you. But the message is the same as it for everyone else. Complete any unfinished business and any unfinished projects; get rid of everything that is broken and no longer serves you. Jupiter and Chiron in Aries send healing energy. Mars and Uranus in Taurus support the idea of getting rid of what is no longer useful. Their function is to shake loose the deadwood in your life and make your path clear. Embrace change.

PISCES: Neptune continues its 14-year journey through Pisces and is now nearing the end of its stay. The message for you is to continue to watch your dreams for guidance during this time of turbulent change. An eclipse always indicates a big change. The rest of the Full Moon chart also presents opportunities to make changes in your life. Finish up anything that is incomplete. Get rid of the old and out grown and outworn. Make room for new energy. Absorb the healing energy of the ocean. Feel the love!

August New Moon occurs on August 27th at 4:18 AM EDT at 04°04' Virgo.

ARIES: The New Moon is a time to begin something new. With Mars in Gemini at the New Moon and Mercury in Libra, it looks like this is less about action and more about brainstorming. Good feelings abound and much can be accomplished.

TAURUS: New Moon/new beginnings. For you Taurus, your ruling planet Venus

is in Leo and is dynamically connected to Uranus in Taurus. A new project begun at this time will likely be temporary. You can plan for that but if you are looking for something that will stand the test of time, wait until next month.

GEMINI: A new project begun under this New Moon in Virgo has your ruling planet Mercury in Libra dynamically connected to Mars in Gemini. This is very beneficial for you because the channels of communication are open and negotiations can begin.

CANCER: The energy of the New Moon in Virgo is very appealing to you Cancer because Virgo is also a nurturing sign but it is expressed in ways unlike your own. Draw on Virgo's energy of caring and helpfulness as you plan the new project this month. Discernment is the key.

LEO: Your special gift is the ability to see the big picture. New Moon in Virgo is a good time to get comfortable dealing with details. Venus in Leo trine Jupiter in Aries bestows the Midas touch to your new project.

VIRGO: New Moon in your sign brings out the best in you. This is a good time to plan any new project you have in mind. Be aware that Uranus in Taurus still has some sudden unexpected surprises in store. Your special gift is knowing when and how to adapt.

LIBRA: Your special gift is knowing how to balance opposing energies. At this New Moon your ruling planet Venus is in Leo, opposite Saturn in Aquarius. Bring your charming self to Saturn's stern demeanor to soften up his energy. Draw on the energy of the New Moon to begin planning a new project and perhaps you can tap into Saturn's patience to assist you.

SCORPIO: The New Moon is generally a good time to begin a new project. All of the energy surrounding this New Moon suggests that this is a good time not for starting, but for planning the new project. Your ruling planet Pluto, still in Capricorn, supports you in making practical plans for a new project. Neptune enhances your talent for creative visualizations. Dream big dreams!

SAGITTARIUS: New Moon in Virgo wants you to rein in your natural enthusiasm long enough to make a plan for your life. Make this your project for this month. You can draw on the planning abilities of Virgo. And your ruling planet, Jupiter, is still in Aries giving you the confidence you need to make your dreams a reality.

CAPRICORN: The energy of the New Moon in practical down to earth Virgo is very supportive of your ability to exert patience and persistence in making a plan for a new project. The project can be put into action next month. Your ruling planet Saturn is in the innovative sign Aquarius suggesting that you can draw on this energy in making your plan. Keep looking up!

AQUARIUS: New Moon energies are always conducive to new beginnings. This month the energy is about making plans for your life. Your ruling planet Uranus is still in Taurus bringing some sudden unexpected changes. This will help clear the cobwebs and the deadwood from your life. Be open to these changes. All things work together for good.

PISCES: New Moon in Virgo is about being careful and paying attention to details. The energy surrounding this New Moon is not about starting something new, it is about making plans and having the patience to focus on the planning process. Focus your attention on your life and determine how you can make it better.
