Claiming Our Abundance Daily

“Beloved, I wish above all things that you mayest prosper and be in health, even as thy soul prospereth.” 3 John 2

Abundance! The very word suggests images of that which is full, rich and unlimited. The American College Dictionary defines it as an “overflowing fullness, quantity or supply.” It also means “to rise up in waves.” So, it can also suggest our good coming *toward* us, much as the ocean waves keep emerging relentlessly and without cease upon the shores.

To claim our abundance implies knowing how to ask for something. Therefore, “claiming our good” suggests and invites us to make a clear and assertive, positive statement or request, wish or desire. Thus in making an effort to claim our abundance, we must learn *how* to ask for what we say we want, or request as necessary from the Source of All Life.

1. **Divine Mind is the One and only Reality.** Charles Filmore, founder of Unity, claimed this truth over 100 years ago. Today that spiritual teaching has encircled the globe is taught and practiced worldwide. First, all substance, tangible and intangible, seen and unseen, is contained in the concept of Divine Mind. Therefore, all that we see in form, or all that we can think about already exists Divine Mind or God. God is substance and may be conceived of as energy, or Spirit, or Light and exists as a part of matter and form. It is the basis of all form, yet does not enter into any form as a finality. This spiritual substance cannot be seen, touched, tasted or smelled. Yet it is more substantial than matter or physical form itself.

2. **Substance is first given** as energetic form in the mind! Then as it passes gradually through several stages

of becoming form, it becomes manifest in our lives. Here we must make our decree. “Thou shalt decree a thing and it shall be established unto thee.” (Job 22:28) We are always decreeing, sometimes consciously, oftentimes unconsciously, and with every thought and word we are increasing or diminishing the threefold activity of substance; stillness or being centered, clarity of decree, and thankfulness for the demonstration.

We cannot rush this process. Here we make our desires known to God. Flimsy-filmy-feathery ideas, halfhearted, poorly defined wishes, and/or unresolved inner or personal conflicts will very effectively dissipate, block, or negate the whole process. If we do not clearly know what it is we want, if we do not believe that what we ask for is possible for us to have, it isn't possible to imprint upon the invisible God Substance the good we desire to bring into manifestation. What we will perpetuate is confusion in our lives! There is an expression associated with the use of computers, “Garbage in, garbage out!”

3. Dare to give up limitation. Give up Debts. Let go of lack!

In the Lord's Prayer we read and say, “*Forgive us our debts, as we also have forgiven our debtors.*” Here Jesus illustrated a most significant law of mind. If we have any thought that someone has wronged us, we block the cleansing and healing power of the spirit. If we are holding onto circumstances of lack or thoughts of lack, if we accept the limitations of indebtedness, we have put bars across our mind and cannot open up to receive thoughts of healing, empowerment or inspiration. Let go of the fear surrounding your debt (of whatever nature or form). Let go of worry or anxiety about finances and what you may owe anyone. This does not release us from the obligation(s), but we can part company from any thoughts that may limit us, give us no rest, make us feel inadequate or a failure. As gently and as lovingly as possible, allow any such thoughts to fall away from us. As we release (forgive ourselves), others will release and forgive us. In other words, what we do *not* hold within ourselves (in mind, in thought), we release from energizing and sending out as a lack in our lives or as images of fear to others.

4. Claim then - ABUNDANCE Claiming abundance is about doing our part - getting right with God - becoming still so we can *truly* know the Real Source of our great good. Once we discover for ourselves and come to that inner knowing, the *real*-ization within that there is only One Presence and One Power in the universe, we succeed in creating or demonstrating our abundant good in all things, in all ways.

I would like to end this brief discussion on abundance by quoting from Charles Fillmore's *Prosperity*:

“There is a universal law of increase. It is not confined to bank accounts but operates on every plane of manifestation. The conscious cooperation of man is necessary to the fullest results in the working of this law. You must use your talent, whatever it may be, in order to increase it. Have faith in the law. Do not reason too much but forge ahead in faith and boldness. If you let yourself think of any person or any outer condition as hindering your increase, this becomes a hindrance to you, for you have applied the law to increase it. Fear of it may cause you to become timid and bury your talent, which defeats the law. Keep your eyes on the abundant inner reality and do not let outer appearance cause you to falter.”

Astro – Insights for March and April

by Carol (CJ) Bonni

Overview for March March is the busiest month of the year, with 3 planets changing signs: Mars enters Cancer, Saturn enters Pisces and Pluto enters Aquarius for 12 weeks beginning March 23rd until June 11th giving us a glimpse of living in the consciousness of a world that works for everyone. This is the most important planetary shift of the decade. Pluto will be in Capricorn for approximately 9 months; the number 9 represents the completion of a cycle. This would be a good time for all of us to examine our thoughts to see if we are holding on to anything that is preventing us from fulfilling what we came to this planet to accomplish. What or who do we need to forgive? Starting with ourselves. At the end of that soul searching period on January 21st 2024, Pluto shifts into Aquarius where it will stay for the next 20 years. The long awaited Age of Aquarius will finally be realized.

Full Moon occurs March 7th, Sun 16 Pisces, Moon 16 Virgo. Virgo is careful, methodical, detail-oriented, balancing Pisces dreamy, all-encompassing, sometimes impractical worldview.

Spring begins March 21st at the New Moon (0 Aries) and the season begins on a positive upbeat note. In addition to the Sun and Moon, 3 other planets (Mercury, Chiron and Jupiter) are also in Aries, energizing us. We are ready for a celebration of Spring!

Overview for April The month starts off on a quiet note when

the Full Moon occurs at 12:34 AM on April 6th. The Sun at 16 Aries is flanked by Chiron on one side and Jupiter on the other. Good feelings and happy thoughts fill the air. The Full Moon at 16 Libra stands alone while all the activity is taking place in Aries. Libra brings balance to Aries overconfidence. Things begin to change on April 20th as the New Moon occurs at 12:13 AM at 29 Aries.

It is also a Solar Eclipse. Eclipses always portend changes. A world leader may have to step down. People will demand that gun laws must be changed. The NRA will not be in favor. This is a tumultuous time. If you have plans to start a new project, you might want to put them on hold until the next New Moon in May.

* * * * *

ARIES Planetary energies are all favorable for you at this time. You are stronger now than ever before. Visualize yourself as your favorite superhero/heroine. Now is the time to step into that role. You know you want to.

TAURUS You are normally steady, reliable, and dependable. These are just a few of your best qualities. Venus (your ruling planet) is closely aligned to Uranus this spring. You are ready to step out of your comfort zone and go for some excitement. If it's romance you are looking for, don't plan on it lasting forever. Enjoy the ride while it lasts.

GEMINI While Mars was in Gemini for an unusually long time, keeping you on edge with ideas coming so fast you didn't have time to write them down. Now Mars has finally slipped quietly

into Cancer, and you are much calmer, contemplative. Enjoy your alone time. Treat yourself to some beach time. Pamper yourself. Go for a walk, enjoy all that Mother Nature has to offer.

CANCER You are normally peace-loving, gentle and quiet. Yet, when your home, your safety, or your privacy is threatened, Mars in your sign brings out the best in you. You become a warrior, a protector. Let your leadership personality shine!

LEO If you are a man, who would you rather be: King Richard the Lion Hearted, or Attila the Hun? Both warriors, both leaders are highly respected by their followers. If you are a woman, which would you rather be: Artemis, the Greek Goddess of the hunt, or the Warrior Princess Xena, also known for her hunting skills? Both highly respected leaders. Have some fun this spring getting into the character of these role models.

VIRGO Whenever someone needs help getting out from under a pile of papers, who do they call? Their Virgo friend of course. Virgo, your organizational skills are legendary, your keen insights are very much in demand. This spring schedule some “me” time to contemplate how you can best use those skills to bring Love and Light to Mother Earth.

LIBRA Your special talent is how to bring order out of chaos. That talent will be put to the test this spring as there is a lot of chaos out there in the world. Short of chartering a private jet to fly to all the trouble spots on the planet, how can you help bring Light and Love to a troubled planet? Visualize a peaceful planet then write down what guidance comes to you. Let peace begin with you.

SCORPIO Your special skill is solving mysteries. March has 5 planets in the very mysterious sign of Pisces. Your special talent will be put to good use solving mysteries this Spring. Pick your favorite detective, Sam Spade, Columbo, or Jessica Fletcher (writer of murder mysteries). Do you have what it takes to join their ranks? Have some fun imagining yourself consulting with all of them.

SAGITTARIUS In March you may find that a long-standing health issue is resolved. In April the planetary energy supports and encourages your plans for a spontaneous adventure. Be careful, be safe, have fun!

CAPRICORN In the early morning hours of March 7, your ruling planet Saturn slips very quietly out of Aquarius and into the sign of Pisces, a sign perhaps more comfortable for Saturn. On March 21, the New Moon ushers in Spring, the season of renewal. Meanwhile, Pluto is still stubbornly hanging out in the final degrees of Capricorn, reminding us to find what is no longer useful in our lives and transform it.

AQUARIUS Uranus still in Taurus is dancing with both the Sun and the Moon at the Full Moon on March 7. This is a happy, if somewhat unpredictable Full Moon. Aquarians are accustomed to sudden unpredictable events. Stay tuned. More sudden unexpected events are on the way. Pluto moves into Aquarius in March for a short stay of only 12 weeks. Spring officially begins on March 21st with 6 planets in Aries. April 1st Venus and Uranus begin an exciting flirtation. Uranus can be very unpredictable, so the romance is likely to be short lived.

By the time of the Eclipse on the 20th of April, Venus has already left Uranus while she seeks something new in the greener pastures of Gemini. Keep your Aquarian lamp lit, hold it high and you will sail through whatever comes your way.

PISCES At the Full Moon in March, there are 4 planets in Pisces, including the Sun. This is surpassed by the 5 planets in Aries. A very busy Full Moon! Pisces natives, you will receive guidance in dreams. If you keep a notebook and pen next to your bed, try to recall these dreams and jot down whatever you can remember. New Moon in March is the official first day of Spring, with 6 planets in Aries. Lots of excitement and anticipation in the air. The Full Moon in April brings the good news that a health issue will be resolved. New Moon and Solar Eclipse on April 20th at the 29th degree of Aries. Don't start any new projects during an Eclipse. As mentioned in the Overview Section, delay the start of any new project until the New Moon in May.
